Raha College, Raha, Nagaon,

Raha College-A profile

Raha College provides the ideal ambience for one having a desire to pursue higher education in Three-year Degree course in the streams of Arts, Science and Commerce. The College has newly introduced Science and Commerce stream from the academic session 2016-17. Situated in a serene atmosphere within the town, the College offers an ideal location for teaching-learning ambits. It is located at a distance of one and half K.M. from Raha town Natun Chariali and can be approached from three main roads. It is only at a distance of 400 meter from the junction of NH-37 road toward Chaparmukh Railway junction. This seat of higher learning celebrated its golden jubilee in 2015 and was reaccredited "B" grade by the National Assessment and Accreditation Council (NAAC) in the same year. The College has two distance education centers at present functioning under Gauhati University and Krishna Kanta Handique State Open University (KKHSOU) offering BA and MA and various certificate and diploma programmes.

The dream of setting up a seat of higher learning was achieved through the endeavor, zeal and aspiration of some far-sighted and enlightened social activists of greater Raha area and it turned into a reality with the establishment of the College on 28th July 1964. Till date Raha College is the only general degree college in Raha Legislative Assembly Constituency reserved for Scheduled Caste. The College is permanently affiliated to Gauhati University and it has started an additional morning shift in BA Degree General Course from the academic session 2014-15. Apart from the regular degree course, the College also runs the HS course in Arts as per AHSEC curriculum. The College has been giving diplomas in two vocational courses, namely diplomas in Pisciculture and Retail Management under UGC scheme of Community College. The College has rich faculty members, a modern library and a Computer Centre.

OBJECTIVES OF THE SEMINAR

1. To create awareness and positive attitudes regarding problems of population explosion and issues among the participants.
2. To discuss on the formulation of policies and programmes to check the population growth.
3. To discuss on the problems faced by the people due to population explosion.
4. To discuss on research in the field of population explosion and development.
5. To prepare a guideline for solving all the problems this will be the outcome of the seminar.
